**TERMITICIDE/INSECTICIDE**

**KILLS:** Termites* (including subterranean, drywood, dampwood and arboreal), Wood Destroying Insects (Powder Post Beetles, Old House Borer, Wharf Borer), Ants (including: foraging Carpenter; excluding: Fire, Harvester, Leaf cutter and Pharaoh)

**FOR USE IN AND AROUND STRUCTURES AND LIMITED OUTDOOR SPOT TREATMENTS:** Apartments, Homes, Food/Feed Handling Establishments (non-food/feed areas), Restaurants, Hospitals and Nursing Homes (non-patient Areas), Hotels, Motels, Hobby Greenhouses, Interiorscapes, Office Buildings, Schools**, Transportation Equipment (Buses, Cargo Trucks, Trailers, Trains), Warehouses and Other Commercial and Industrial Buildings

* Not a substitute for mechanical alteration, soil or foundation treatment.

**ACTIVE INGREDIENT:** Fipronil: [5-amino-1-(2,6-dichloro-4-(trifluoromethyl)phenyl)-4-((1,R,S)-(trifluoromethyl)sulfinyl)-1-H-pyrazole-3-carbonitrile] 0.005%

**OTHER INGREDIENTS:**

EPA Reg. No. 499-563

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**PRECAUTIONARY STATEMENTS**

**ENVIRONMENTAL HAZARDS**

Do not apply within 15 ft of bodies of fresh water: lakes, reservoirs, ponds, permanent streams, marshes, national parks, forests, and commercial fishponds. A 15 ft buffer of uniform groundcover must exist between the application area and bodies of fresh water (uniform ground cover is defined as land which supports vegetation of > 2” throughout).

Do not apply within 60 ft of estuarine bodies of water. Estuarine water bodies are brackish, tidal water such as bays, mouths of rivers, salt marshes and lagoons.

This product is toxic to birds, fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Care must be taken to avoid runoff. Do not contaminate water by disposal of wastes.

**PHYSICAL OR CHEMICAL HAZARDS**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a flammable propellant. Avoid drilling in areas near electrical wiring, plumbing, communication lines, etc. Do not apply directly into any electronic equipment such as radios, televisions, computers, etc. Do not apply where electrical short circuits might result, such as in wall outlets, conduits, motors, switch, etc. Product should only be used when can temperature is above 60°F. If can temperature is below 60°F, store at room temperature until a temperature above 60°F is reached.

**APPLICATION INSTRUCTIONS**

Use only with Whitmire Micro-Gen or BASF approved actuators. Remove the outer cap and snap the actuator into place. Remove the finger pad cover. After using, replace the finger pad cover. When the can is empty, remove the actuator from the can and use it on another can.

**APPLICATION INSTRUCTIONS**

**TREATMENT OF INSECT GALLERIES, HARBORAGES OR VOIDS:** Use adequate foam to treat the known or suspected insect harborages. After applying the insecticide to the suspected harborage, drill(s) may be required to gain access to the known or suspected gallery, harborage or void. Drill holes(s) at 1 or more locations along the gallery, harborage or void to adequately treat. Use of a moisture meter may aid in determining the spread of a treatment.

This product can be used as a localized treatment for the control of existing infestations of subterranean termites and other wood destroying insects as a supplemental treatment in a structural protection program. This treatment is intended for localized wood destroying insect infestations only. The purpose of such applications is to kill wood destroying insects which may be present in the treated channels at the time of treatment. Such applications are intended as supplemental treatments to, but not a substitute for, mechanical alteration, soil treatment, or foundation treatment. It should not be used as a stand-alone treatment for structural protection.

**Reapplication Interval:** This product may be applied to previously treated sites if activity is found 30 days after previous application.

**WOOD DESTROYING PEST TREATMENTS - INDOORS**

**TERMITES [SUBTERRANEAN (Coptotermes, Reticulitermes, and Heterotermes), ARBOREAL, DAMPWOOD (Zootermopsis)]**

**ARBOREAL**

Use in areas where termites are known or suspected. Apply product to termite galleries, channels, damaged wood, harborages between structural elements or within construction voids. Locations for indoor treatment may include areas associated with unexposed wooden elements inside wall voids, and in around bath traps, shower voids, pipe chases, utility penetrations and other probable sites of termite entry or harborage.

**OTHER WOOD DESTROYING PESTS [POWDER POST BEETLES, OLD HOUSE BORER AND WHARF BORER]**: Locations for treatment may include areas associated with exposed non-sealed wooden elements in areas such as crawl spaces, attics, unexposed wooden elements inside walls, galleries or other harborages.

**WOOD DESTROYING PEST TREATMENTS - OUTDOORS**

Locations for outdoor treatments may include exterior wooden elements associated with bridges, decks, fencing, landscape timbers, wooden retaining walls, siding, channels in damaged wood, in spaces between wooden elements of a structure, junctions between wood and foundations and voids associated with plumbing. Do not apply this product in or on boats. Do not apply to areas of non structural piers, bridges, or any other structures that may contact surface bodies of water. Do not allow this product to contaminate or come into contact with surface waters through application or drift.

Application to exposed subterranean termite tunnels (i.e. shelter tubes) may be made to outdoor residential and commercial areas. Break open a section of the shelter tube and apply directly over the surface with the foam. Use sufficient amount of foam to cover the exposed area and to a distance of approx. 2” in each direction over the shelter tube itself.

**TERMITICIDE/INSECTICIDE**

**NOTE:** This specimen label is for informational purposes only. All uses may not be approved in all states. See labeling which accompanied product for Directions for Use or call 800-777-8570 for more information.
**FOOD/FEED HANDLING ESTABLISHMENTS**

Applications are permitted in the non-food/feed areas of food/feed handling establishments as a void or exterior spot treatment. Do not apply to voids in any equipment or machinery used in the storage, processing or preparation of food.

For Wood Destroying Pests: Treat voids, from the exterior or interior, where these pests enter, hide or harbor. Immediately wipe up any product on an exposed surface.

Food/feed handling establishments are defined as places other than private residences in which exposed food/feed is held, processed, prepared or served. Food/feed areas are areas for receiving, storing, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) of food. Serving areas where food is exposed and the facility is in operation are also considered food areas.

Non-food/feed areas include areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (after packaging, canning or bottling).

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in a cool area away from heat or open flame.

**PESTICIDE DISPOSAL:** Waste resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Do not puncture or incinerate! Empty container by using the product according to the label directions. If empty: Offer container for recycling, if available, or place in trash if allowed by state and local regulations. If partly full: Contact your local solid waste agency for disposal instructions.

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

**CONDITIONS OF SALE AND WARRANTY**

Follow the Directions for Use. It is impossible to eliminate all risks inherently associated with use of this product, and therefore all such risk shall be assumed by the Buyer. Whitmire warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks, referred to above. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW: (A) WHITMIRE MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY, (B) BUYER’S EXCLUSIVE REMEDY AND WHITMIRE’S AND SELLER’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT, AND (C) WHITMIRE AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. Whitmire and the Seller offer this product, and the Buyer accepts it, subject to these Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of Whitmire.
